

G115-D1781 – Climbing Drum Peel Test Fixture per ASTM D 1781

Drum Peel Test Device Requirements – ASTM D1781 specifies test fixtures for determining the adhesive properties between a relatively flexible adherand and a stiff adherand. The G115-D1781 fixture meets these requirements.

The G115 model apparatus is built to suit the specifications assigned in ASTM D1781 for a peeling apparatus. The Apparatus consists of a flanged drum, flexible loading straps, and specified clamps for holding the test specimen. The dimensions were modeled per ASTM.
