

## G252 Tensile Strap Webbing Ribbon Grips

Rated to 5 kN (1125 lbs)

G252 capstan or roller style test fixtures minimize samples slippage and jaw breakage effects associated with tests of thin webbing or straps which tend to exceed the load holding capacity of simple vise style grips. The design offers ease of loading and high gripping efficiency.

Model G252	
Rated Force	5 kN (1125 lbs)
Maximum Thickness	2.5 mm (.10 in)
G252-5-40-25	40 mm diameter capstan – 25 mm wide
G252-5-40-22	40 mm diameter capstan – 22 mm wide
