

G314 Wire Terminal Grip

Rated to 20 kN (4496 lbs)

G314 Wire Terminal Grip tests the integrity of wire/terminal connections by providing slots used to strip the wire from the terminal.

The rotating self aligning wheel has 12 equally spaced slots ranging from 1 to 6 mm in diameter (additional size ranges available). Requires additional upper fixture (see [G76](#), [G56K](#) or [G56G](#)).
